a fear that if the arid land law of 1888 is repealed a lot of land sharks will rush in and get possession of vast tracts of the arid lands. During the life of the desert land law they had ample opportunity to possess all the land they desired, obtainable under its provisions, and there is no good reason to suppose they covet these lands more to-day than they did two years ago. Under the desert land law the its continuation will speedily bring its arid lands largely under cultivation. The law was originally enacted in the interest back a but after their greed abords but after their greed abords. But after their greed abords and but after their greed abords original friends attacked it and sought its practical nullification by the reservation clause of the arid land land law The senate, under strong pressure, has repealed the latter, but the House refuses soncur and the matter will go before a are the enemies of the west in their ophat they even impute corrupt motives to those who want the reservation clause repealed, and a stubborn fight is in prosbe entered, and private capital permitted

steps to further push political affairs to may choose to make it by their own conduct. We do not share in the charge that the committeemen exceeded their authors. The magnificent body of water running away to the ocean without being utilized by man strikes one as being a peculiar the committeemen exceeded their authors. The magnificent body of water running away to the ocean without being utilized by man strikes one as being a peculiar and the stringgle she must make for her rights. The Republican party of the Termothing more.

The magnificent body of water running attempt to throttle her progress will fail attempt to t success or failure as the rank and file ifested by the remaining members body for active work. At the same time, it would have been far more satisfactory had they extended a public invitation to all republicans to be present and take a wheel being turned by its power. There are placer mines and rich ground for miles on either side almost beyond compared being turned by its power. There are placer mines and rich ground for miles on either side almost beyond comprehension, and yet only to be worked by the delegates to the Territorial convention among the several precincts and indeprive them of this right cannot be productive of good for the party. All these matters the com-pany is authorized to do and will do as effectively and cheaply as the best mod-ern methods wisely employed permit. WHERE THEY COME FROM.

tlement is somebody to settle. The Arizona and Eastern Colonization Society proposes to draw upon the thrifty, shrewd and industrious communities of our var-ious New England States. Many a worthy family turns longingly to this had been a time of license; but the most dis-solute men of that generation would have blushed at the orgics of the Regency. The Puritan Parhament tried the same land of perpetual spring, where flowers bloom and semi-tropical fruits ripen the year round. They cannot come here account of ways and means difficulties. These difficulties the new company will seek to overcome. Director Booth has this matter specially under his charge of impostors, in every walk of life, began With headquarters at Providence, R. I., he sends his agents all over the New Ento mimic and to caricature what were then regarded as the outward signs of sancitity. \* \* \* \* The Restoration gland States. Wherever a family is found desirous of undertaking the new rushed for a time the Puritan party, and life in Arizona that has attracted so many placed supreme power in the hands of a libertine. The political counter-revolualreday, arrangements will be made by which that family can settle there. The tion assisted the moral counter-revoluaim of the company is to help such people help themselves. It is no charitable ention, and was in turn assisted by it. A period of wild and desperate dissoluteness followed. Even in remote manor houses terprise. All transactions will be conducted upon a purely business basis. But and hamlets the change was in some de-gree felt: but in London the outbreak of debauchery was appalling. we all know of golden opportunities miss-ed because monied friends could not see them as we did and would not lend their These examples teach the important ruth that, law without character to susaid without which we could do nothing This company knows the possibilities of Arizona. Its directors have personal tain it is of no value. And with this beknowledge of her resources. They know that the only legitimate and proper work of the Church is not the making of laws, worthy men can win a competency from our rich fruit and grain lands. The company runs no risk in advancing the means

by which such settlers can be placed face to face with these conditions. The scheme has succeeded in California. It will do far better than they can do by all the efforts that they can ever make to secure the enactment of Sunday laws or Next fall will pro-Next fall will probably witness a considerable influx of desirable citizens, and every year will witness increased additions to this land that is as fair as any the

The San Pedro Martir Pine Region. Two hundred miles south of Yuma lies the great pine region of San Pedro Martir. The mountain on which the pine is sit-nated, reaches a height of 15,000 feet, as measured by T. S. Van Dyke, the ready writer of San Diego, and also by Col. D. K. Allen. The mountain on top is about 90 miles in length by 15 to 30 wide. It is estimated that it contains no less than 1,000,000, acre of land, all of which is thickly covered with the richest and bes of grasses and one half of which is cover ed with a great growth of pine timber Red Cedar trees have been found which measure 25 feet in circumference two feet above the ground. One pine tree lying on the ground measured 210 feet in length, 25 feet in circumference 3 feet from the butt, 1634 feet in circumference 100 feet from the butt, and 50 feet to the first limb. It is estimated that there are to the tree, each log, 12 feet in length and 216 feet in diameter. The Peninsular R. R. will run within 30 miles of the north that "E. G." did not conceive the area that "E. G." did not conceive the area that Clifton covers. He was not here long enough. But the day is not distant when Clifton's importance will be known and her capabilities understood.

Tempe News. In accordance with the recommendation neation have elected Mr. Edgar L. Storone in many ways, not the least of which is the normal school. His own education was btained in the Southern Illinois Normal University where he graduated at the head of his class, with an enviable record for application and ability which his subsequent career as a teacher has ably up-

from this school discloses the fact that its course is rather more severe than is usually the case in state normals, being in this instance, of four years length. Mr. Storment has not only taken the entire necessary course, which includes one year's teaching in the training school annexed to the institution, but has on his diploma construction has been under careful consideration for the past's ix months and the project has grown in favor as it has received more careful investigation, and it assistant for an able principal, under

whose joint care the normal school should succeed better than ever. Spreading the Gospei.

would become practically one town and the latter would soon enjoy the luxuries of our electric lights and possibly our water system. Let the good work go on. On Monday evening as Rev. Downs was assisting his wife to alight from the

Good Ballroad News.

We were informed to-day from thentic source that the new road to Pres cott would almost certainly be begun a very early day. The Journal-Miner of

last Friday says: "The latest railroad talk is to the effect that the road will be pushed southward as rapidly as possible to the southern boundary line, thereby tapping the great mineral belt of this county. Whether it will be built across the great barren waste in Maricopa county will be determined

An Artist's Work

There is on exhibition at Black's jewelry store to-day a large banner for the G. A. R. of this place, painted by Miss Lorette Lovell, which is truly a beauty. The design consists of a true Arizona scene, representing the cactus and other Arizona vegetation with mountains in the background, all natural as in real life. Hidden behind rocks and cacti can be seen armed Indians watching the move-ments of a prospector, who is unloading his burro. The banner is a beauty and a specimen of true artistic skill, in which Miss Lovell may justly take pride as being its painter, and which the G. A. R. will doubtless count as one of their treasures. The banner will be on exhibition to-morrow, and those who miss seeing it miss something fine.

WHY DID HE GO? A St. Louis Merchant's Trip to the Postoffice, and the Result

commission merchant of 122 and 124 North ommercial Street, was one of the first to test Joy's Vegetable Sarsaparilla in sick headaches. Its effect was such a gratifying surprise that he went over to the postoffice and told his friend, Thos. P. Culkin, the superintendent of the registry division, who was also worried with headaches, about it. The following letter details his friend's experience also: -

tails his friend's experience also:

J. V. S. Barrett, Esq.:—

Draw Sin: You ask me, Did I act on your advice? I did, and am glad to have to thank you for it. For years I have suffered from indigestion and headaches. Taking your advice, I purchased a bottle of Joy's Vegetable Sarsaparilla. Before I had finished the first bottle I could cat almost anything with impunity, and have been since rarely troubled with a headache of any kind, for which I give due credit to your advice and Joy's Vegetable Sarsaparilla.

Yours, etc.,

THOS. P. CULKIN,

Superintendent Registry Division, Postoffice.
